DIARY NOTES

25X1A

DD/S [REDACTED]

2 December 1957

1. Shef Edwards telephoned to say that he was addressing a memorandum to me concerning a security violation in the Office of Research and Reports which he considered to be rather flagrant. Apparently the individual involved has permission to engage in outside employment with an investment broker. He copied from the CIA Telephone Directory 170 names of Agency employees, including people like [REDACTED] etc. His wife then looked up the home addresses and telephone numbers of 25X1A9a these individuals and the list was eventually turned over to the broker so that the names could be circularized.

2. Matt Baird telephoned to request that the supergrade promotions which he recommended be acted upon in time for presentation before Christmas if possible. I told him that I would try to arrange this.

25X1A9a

3. Talked to [REDACTED] about the possibility of transferring from Project HTAUTO-MAT to Project AQUATONE as [REDACTED] Deputy. He feels that his present job is more important than the one which Jim has to offer and does not wish to transfer.
